

Engineering the Future

KA SERIES PISTON AIR COMPRESSORS

3 - 15 kW

RELIABILITY, PERFORMANCE & SUPPORT

Heavy duty, cast iron piston compressors have always been the backbone of industry. Kaishan Compressors offer a range of robust, reliable models from 3-15kW (4-29 hp) which are ideal for a wide range of workshop and industrial applications

Whatever your application, a Kaishan KA series piston compressor will provide safe, reliable and clean compressed air. Contact us now for expert advice on selecting the right compressor for your special needs.

KA SERIES PISTON AIR COMPRESSORS

Kaishan Compressors Heavy Duty Piston Compressors are engineered using the highest quality components.

- Slow Revving, Cast Iron Pump
- Tapered Roller Bearings
- Robust Safety Guard
- IP55 MEPS Compliant Electric Motor
- Industrial Grade High Quality Finish
- Powerful, High Flow Cooling Fans
- Start/Stop Control (standard on KA4 - KA10)
- Constant Speed Unloading
- Star Delta Starter (KA15 & KA20)
- Dual Control (KA15 & KA20)
- Air Receivers to AS1210-3

Every compressor is rigorously workshop tested to perform to stringent quality standards.

OTHER SERVICES:

- System Design & Consultation
- Flexible Service Plans
- Installations
- Air Audits
- Air Receiver Inspections
- Air End Rebuilds
- Air Compressor Hire

ANCILLARY EQUIPMENT:

- Air Receivers
- Dryers
- After-Coolers
- Coalescing Air Filters
- Oil-Water Separators
- Auto Drains
- Condensate Separators
- Safety Valves

KA SERIES SPECIFICATIONS

MODEL	POWER		CYLINDERS	FREE AIR DELIVERY		WORKING PRESSURE		AIR RECEIVER (l)	WEIGHT (kg)	DIMENSION (mm)
	kW	hp		m ³ /min	(cfm)	bar	psi			
4	3	4	2	0.40	14	8	115	180	175	1310 x 500 x 960
5.5	4	5.5	3	0.52	18			180	215	1425 x 560 x 1050
7.5	5.5	7.5	2	0.67	24			162	280	1440 x 560 x 1050
